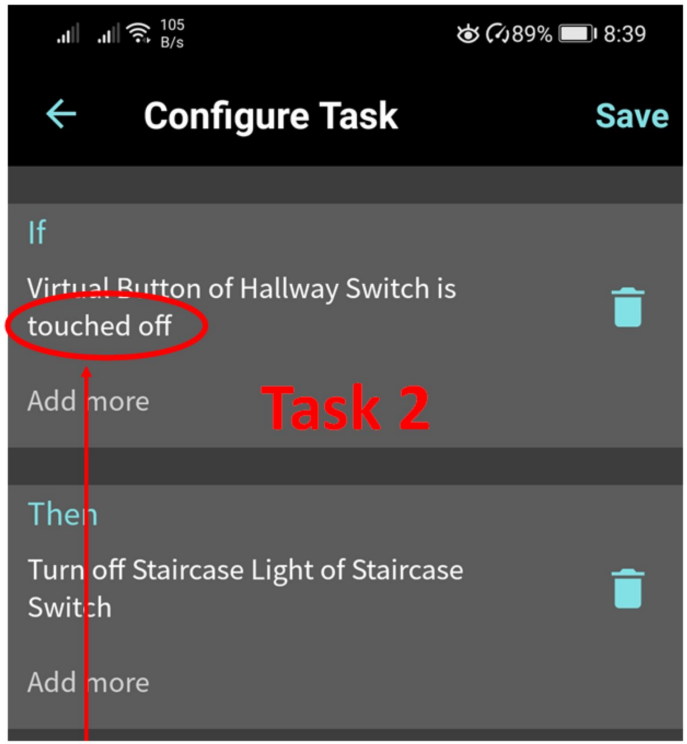
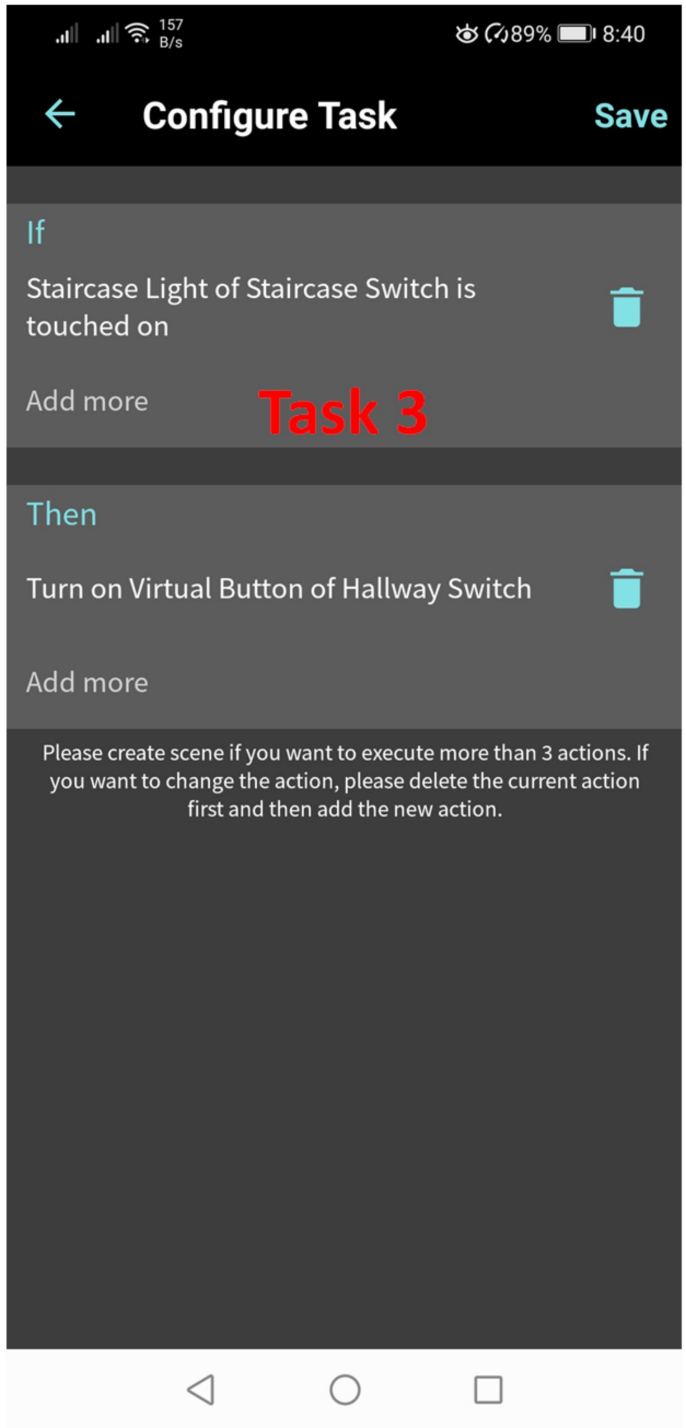
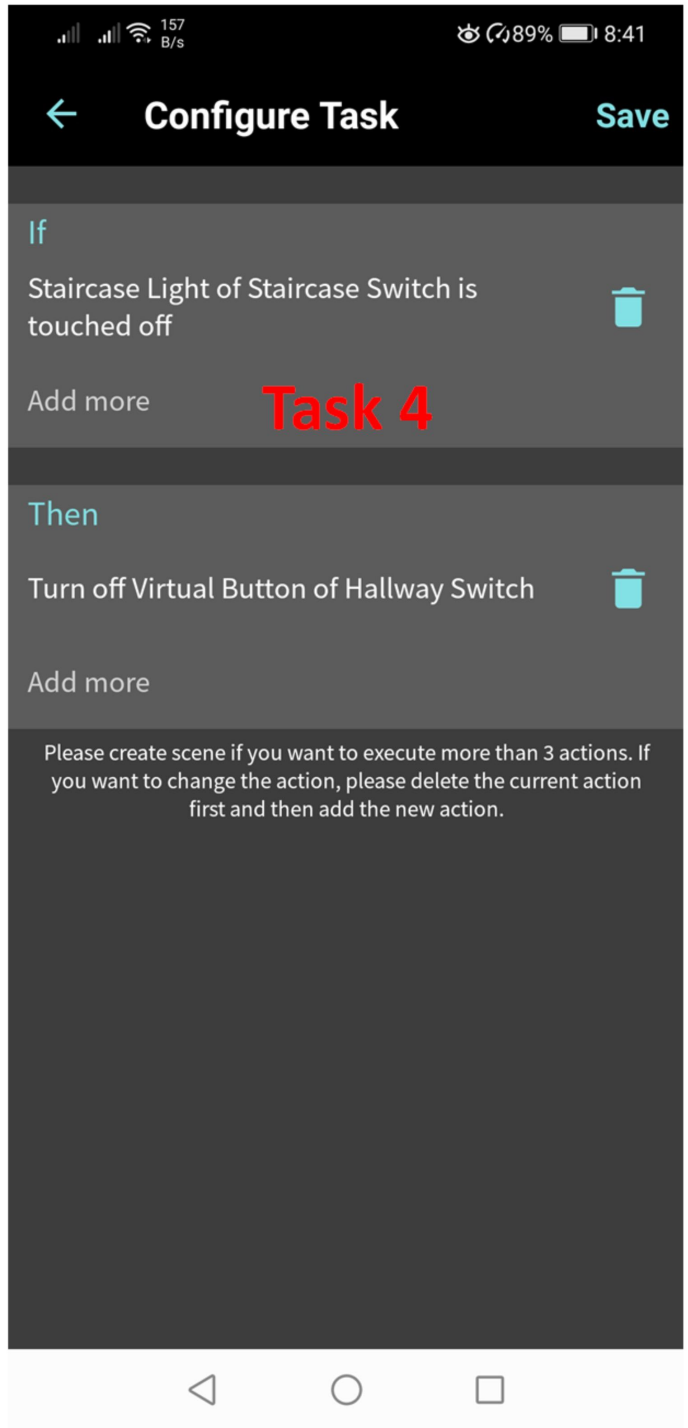
Task 1
Please create scene if you want to execute more than 3 actions. If you want to change the action, please delete the current action first and then add the new action.







Condition become true **ONLY** when user turn off the Virtual Button of the Hallway Switch by physical **TOUCH**.

Eg. When user turn off the Virtual Button of the Hallway Switch physically by touch, then the Staircase Light of Staircase Switch will be turned off together as well because the condition was true.

Eg. When user turn off the Virtual Button of the Hallway Switch by Apps or remote control, the Staircase Light of Staircase Switch will NOT be turn off together because the Virtual Button was not off by physical touch.
