

# Smart Home Automation with Advanced Alarm System

Wireless Solution

## Automate. Secure. Simplified.

- Autogate reimagined. A truly smart gate.
- Alarm System with voice siren
- Offline Automation
- Anti-Sabotage
- Fog Generator
- Google Assistant
- Absolute Power

## Closer Than Ever

Your home appliance is just fingertips away. Here are the different ways to control it.

**App control  
from  
worldwide  
via internet**

**Remote  
control**

**Voice  
control**

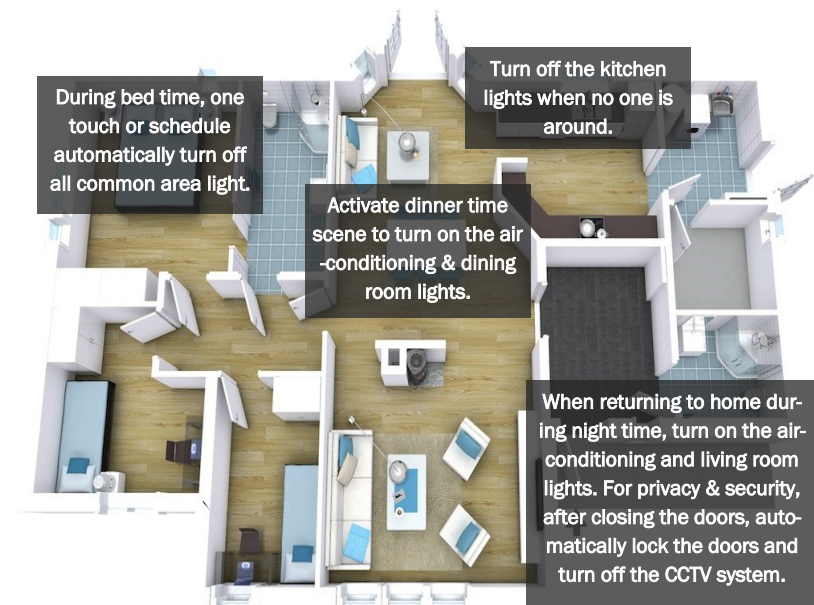

**Motion  
activated  
control**

**Time  
schedule to  
perform  
routine task**

## Redundant Routine Task . . . Forget It

Free up your time, automate and forget about it. Let your helping hands do the work.

## Make a 'Scene'

Make life more effortless and enjoyable with our scene controls that group multiple action into an one touch command.

## Autogate Reimagined

Ever forget to close your car porch gate? Those days are over. Control it remotely via apps or let it close automatically. Most importantly, it works with your existing autogate system.

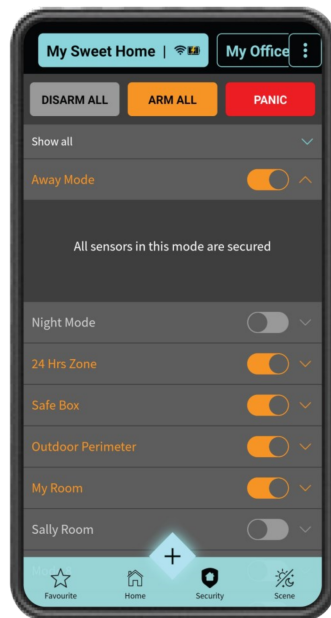

## Protect Your Love One

### Automated Alarm System

Automatically arm and disarm your alarm system when you go to sleep and wake up.

### Intuitive Monitoring

Our app only provides information that is necessary for quicker one glance checks.

### Flexible Protection

Secure and arm areas and change them as you need easily through our app.

### Alerts

Get alerts when your alarm is triggered or any unauthorized behavior is detected.

## Prepared For The Unexpected

Our products are prepared for the worst. Always on the job.

### Power Outage Protection

If your main power fails, we don't. A backup battery will kick in and can protect you up to 24 hours.

### Heartbeats

Our system automatically self-checks itself periodically. If anything is not right, it will alert you.

### Offline Automation

When you have no internet connectivity, all your task and alarm that is preset will all just work fine.

## Advanced Protection

No compromise in security.

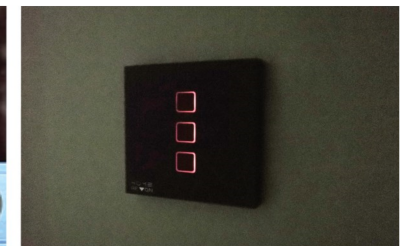

<p>We are always trying to keep you and your loved ones safe at all times. Get alerts when there are any unauthorized malicious attempts on your sensors.</p>	<p>In any alarm or panic scenario. Using our voice siren, it will literally scream for help ( human voice ). You could also make a dog barking sound.</p>	<p>Install a fog generator to protect you when in an event of any unforeseen circumstances. The area will be filled with smoke, intruders won't get to see you .</p>

## Voice Assistance

## Soft Illumination

Want it to be even less hassle, just use your voice to turn on lights and control for other devices, as our system works with google assistant.

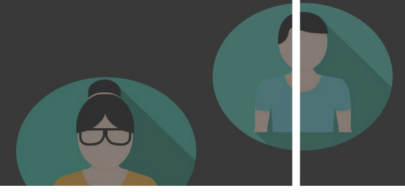

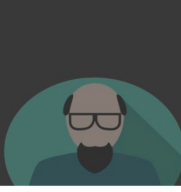

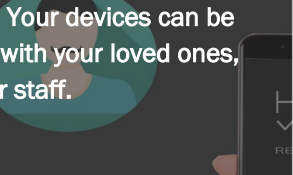

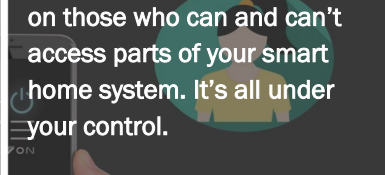

Our smart switches lights up so that you're able to find it when in the dark. We assure you that you won't get electrocuted with our beautiful glass design.

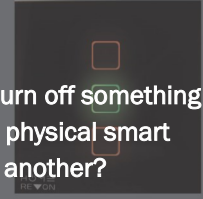

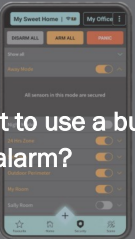

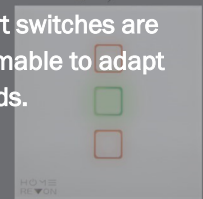

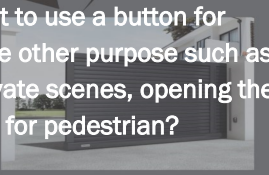

## Every Home Can Be A Smart Home

<p>All of our products are integrated and wireless.</p>	<p>No drilling. No wiring. No mess. No pre-renovation planning.</p>
<p>Our products can be directly replaced, upgraded &amp; downgraded at any time, using back the same wiring provided by your home.</p>	<p>This way it's a lot less expensive.</p>

## Absolute Power

<p>Sharing Your Home</p> 	<p>All Under Your Control</p> 
<p>Great things are meant to be shared. Your devices can be shared with your loved ones, guest or staff.</p> 	<p>Fine grained access control on those who can and can't access parts of your smart home system. It's all under your control.</p> 

## Virtual Button

<p>Want to turn off something from one physical smart switch to another?</p> 	<p>Want to use a button to arm the alarm?</p> 
<p>Our smart switches are programmable to adapt your needs.</p> 	<p>Want to use a button for some other purpose such as, activate scenes, opening the gate for pedestrian?</p> 

## Pocket Remote

	<p>Works the same with virtual button but on a pocket-size carry along remote. It makes it so much easier and convenient to use your smart home system.</p>
